Bulletin on Current Literature of the National Society for Crippled Children and Adults

A Monthly Bibliography for Workers with the Handicapped

Vol. 8, No. 4 Fifty Cents a Year April 1947

ABILITY TESTS

215. Long, W.F.; Lawshe, C.H., Jr.
The effective use of manipulative tests in industry. Psychological Bul. Mar.1947. 44:2:130-48.
A discussion of the inadequate use of motor-skill tests in industry with suggestions of remedial measures to be taken.

AMERICAN HEARING SOCIETY

216. Schacht, Robert H., Jr.
What a community should expect of a Hearing Society. Hearing News. Mar.1947. 15:3:3,10-12.
Presented before the Eastern Zone Conference of the American Hearing Society, Providence, R.I., Oct. 24-26,1946.

See also 239.

AMPUTATION

217. Ryan, Thomas C.
Amputations: The care of amputee patients. Military Surgeon. Mar.1947. 100:3:224-8.
Summarizes surgical principles based on the treatment and study of 975 amputee patients at the U.S. Naval Hospital, Philadelphia.

218. Weaver, Paige
Physical therapy management of lower extremity amputees. Physiotherapy Rev. Jan.-Feb.1947. 27:1:3-9.
The standardized program as determined at a conference in 1945 held at the Army Medical Center, Washington, D.C., attended by medical officers and physical therapists from all Army amputation centers.

AMPUTATION--GERMANY

219. McMurray, T.P.
Sauerbruch cineplastic amputation. Lancet. Feb.15,1947. 152:6442:268-9.
A reply to the article by R.K.Magee on the same subject in the Dec.21,1946 issue (cf. Bulletin on Current Literature, Feb.1947, item 70).

ANAESTHESIA

220. Dillon, John B.
Choice of anesthesia in orthopedic surgery. J. Am. Med. Assn. Mar.22,1947. 133:12:829-31.

Issued by the Research and Legislative Service, National Society for Crippled Children and Adults, Inc.

11 South LaSalle Street Chicago 3, Illinois

ARTHRITIS

221. Edstroem, Gunnar
Kinesotherapy and extension treatment in rheumatoid arthritis. Brit. J. of Physical Medicine. Jan.-Feb.1947. 10:1:4-8.
Explains the aims and methods of kinesotherapy and the part remedial exercise plays in it.

222. Shulman, J.
Bismuth therapy and physiotherapy in rheumatoid arthritis. Brit. J. of Physical Medicine. Jan.-Feb.1947. 10:1:8-11.
A report of a study made of bismuth therapy which indicates that with other physical methods it can be helpful in treating arthritis.

BLIND

223. Greear, James N., Jr.
Rehabilitation of the blinded soldier. Military Surgeon. Feb.1947. 100:2:150-6.
How the Army program was set up and administered.

BLIND--BIOGRAPHY

See 304.

CAMPING

224. Case, Maurice
Experiment in camping. Recreation. Mar.1947. 40:12:632-4.
An account of a successful camping project with blind children.

CANCER

See 261.

CEREBRAL PALSY

225. Blumenthal, Edna M.
Traumatic cerebral palsy. Physiotherapy Rev. Mar.-Apr.1947. 27:2:83-93.
A discussion of the physical therapy program at Bushnell General Hospital of the U. S. Army for patients with cerebral palsy resulting from war injuries.

226. Bruner, R. H.
Training the cerebral palsied at home. Crippled Child. Feb.1947. 24:5:7-9,30.
The writer is Assistant Medical Director, Children's Rehabilitation Institute, Cockeysville, Md. His son, aged nine, is a severely handicapped cerebral palsied child.

227. Burton, Mary L.
General implications of cerebral palsy. J. of Social Casework. Mar.1947. 28:3:91-
An explanation of cerebral palsy and how it involves social casework.

228. Elkes, Regina
Group-casework experiment with mothers of children with cerebral palsy. J. of Social Casework. Mar.1947. 28:3:95-101.
A report of an experiment by the Brooklyn Visiting Nurse Assn., which operates a cerebral palsy treatment center, in which a series of four meetings for mothers were conducted by social caseworkers while the children were receiving treatments.

229. Fishbein, Morris
The spastic child. Hygeia. Mar.1947. 25:3:177.
An editorial by the editor of Hygeia on the cerebral palsy problems and the program of the National Society for Crippled Children and Adults.

Friedland, Fritz; Margolin, Reuben J.
Physical rehabilitation of patients with brain injuries. Occupational Therapy and Rehabilitation. Feb. 1947. 26:1:8-16.
A report of the rehabilitation program for over 80 hemiplegic patients at the Cushing General Hospital. Describes the activities of the ambulation class, the equipment used, motor performance test devised, and the degree of success achieved.

1. Leden, Ursula M.; Krusen, Frank H.
Physical medicine in cerebral palsy. Archives of Physical Medicine. Mar.1947. 28:3:158-64.
Summarizes principles to be followed in the treatment of cerebral palsy.

2. National Lutheran Council. Division of Welfare.
A study of proposed program for the care and treatment of cerebral palsied children by Tabitha Home, Lincoln, Nebraska. National Lutheran Council, 231 Madison Ave., New York 16, New York. Jan.1947. 21p. Mimeo.
Describes briefly the nature and character of cerebral palsy together with comments on possible contributions of Tabitha Home within the framework of a total state-wide service to the cerebral palsied. The report is designed to supply information to assist the Council in determining whether or not to embark on such a program.

3. Norfleet, Grizzelle M.
Mental hygiene program for the cerebral palsied child. Physiotherapy Rev. Mar.-Apr. 1947. 27:2:101-6.
A discussion of the six basic drives of human beings and the provisions for meeting them in a cerebral palsy program. Describes a six-year experiment project at Duke University Hospital.

4. Roon, Karin
Report of classes in applied relaxation with special emphasis on the needs and the results achieved for cerebral palsy adults. Karin Roon, 309 W. 57th St., New York 19, New York, 1947. 15p.
"The purpose of the following report is to tell doctors and legislatures who are interested in the problem of C.P. what results have been achieved at the Federation of the Handicapped, Inc., through classes I developed for adult members in what I term 'Applied Relaxation'."

5. Stanchfield, Margaret A.
Medical-social aspects of cerebral palsy. Public Health Nursing. Feb.1947. 39:2:97-100.
"One of a series of talks on cerebral palsy presented as part of a continuation course in Orthopedic Nursing, University of Minnesota, June 26, 1946. Others in the series will appear in later issues of the Magazine."

ILDREN--GROWTH AND DEVELOPMENT
6. Stuart, Harold C.; Meredith, Howard V.
Use of body measurements in the school health program. Am.J. of Public Health. Dec. 1946. 36:12:1365-86.
Urges school health services to take a few body measurements on all children once or twice yearly. Describes a standard technique to be followed.

See also 266.

ILDREN'S HOSPITALS AND DEPARTMENTS
7. Wright, Carl, Jr.
Children's floor stresses good cheer. Modern Hospital. Feb.1947. 68:2:56-8.
A short description of the newly remodeled pediatric ward of the United Hospital, Port Chester, New York.

CHRONIC DISEASE
See OLD AGE

DEAF

238. Greenaway, E.S.
The properly organized nursery is the better home for the deaf child. Volta Rev. Mar.1947. 49:3:121,156.

239. Lehman, Ann
The social worker in a hearing society. Hearing News. Mar.1947. 15:3:5,8.

240. McIntire, Ross T.
Program for the deaf. Military Surgeon. Mar.1947. 100:3:207-12.
A discussion of the aural rehabilitation program of the U.S.Navy by the Surgeon General of the Navy.

241. Passe, E. R. Garnett
Fenestration operation for otosclerosis; interim report on 136 cases. Lancet. Feb.1,1947. 252:6440:171-4.
"An account is given of the clinical diagnosis of otosclerosis with a brief description of the procedure of the fenestra rov-ovalis operation and an interim evaluation of 136 cases with illustrations in each of three selective groups." An editorial in the same issue (p.181-2), "Surgery for Deafness," summarizes present knowledge and practices.

See also 216.

DIABETES
See 261.

DIATHERMY--RESEARCH

242. Wells, Herbert S.
Temperature equalization for the relief of pain; an experimental study of the relati of thermal gradients to pain. Archives of Physical Medicine. Mar.1947. 28:3:135-9.
"It has been discovered that, within the range of temperatures which will not injur tissues, thermal gradients, or differences of temperature, between superficial and de tissues, are effective stimuli for pain nerve fibers."

ELECTROTHERAPY--EQUIPMENT

243. Golseth, James G.; Fizzell, James A.
A constant current impulse stimulator. Archives of Physical Medicine. Mar.1947. 28:3:154-8.
Describes an electrical apparatus used in the Army neurosurgical centers for treati peripheral nerve injuries.

EMPLOYMENT

244. Kuechle, B.E.
Legal and administrative handicaps to a rehabilitation program. Occupational Medic Nov. 1946. 2:4:423-7.
Gives examples of faulty laws and faulty administration of laws that work against t employment of disabled persons in industry.

See also WORKMEN'S COMPENSATION--SECOND INJURY; VOCATIONAL GUIDANCE.

EXERCISE

245. Keith, Marcia T.
Emphasis on exercise as a therapeutic agent: In a Naval physical therapy departmen Physiotherapy Rev. Jan.-Feb.1947. 27:1:10-13.

HANDICAPPED

246. Linck, Lawrence J.
The handicapped in a democratic society. Crippled Child. Feb.1947. 24:5:13-15.
"Based on address delivered at the 25th Annual Convention of the National Society for Crippled Children and Adults, Chicago, Illinois, December 9-11, 1946."

HANDICRAFTS

247. Liotta, Ferdinand V.
The creative laboratory or handicraft shop. Industrial Arts and Vocational Education. Mar.1947. 36:3:106-112.
A helpful guide to establishing a school handicraft shop with equipment and facilities for 20 students. Lists reference books and tools needed.

HEALTH SERVICES

248. Gillen, Paul B.
The attitudes, opinions and actions of certain Yorkville families regarding health and illness together with their knowledge and use of local health resources. N.Y., Cornell University Medical College, June 1945. 55p. Appendix Processed.
A pilot study made of a typical city block of 95 families in the lower income level.

HEART DISEASE

249. Dogramaci, Ihsan; Green, Hyman
Factors in the etiology of congenital heart anomalies. J. of Pediatrics. Mar.1947. 30:3:295-300.
"...It thus appears that disease and the presence of noxious agents during pregnancy could possibly account for only a small proportion of cases with anomalies, and further investigation, to which it is hoped the present report may make a small contribution, is necessary to explain the etiology of those conditions."

See also 251.

HEREDITY

250. Snyder, Laurence H.
Medical genetics and public health. Bul. of N.Y. Academy of Medicine. Nov. 1946. 22:11:566-87.
Applies the principles of heredity and medical genetics to preventive medicine and public health problems.

See also HEART DISEASE; Rh FACTOR.

INDUSTRIAL HYGIENE

251. Symposium on working capacity: Presented at the 7th Annual Congress on Industrial Health, Boston, Oct.1,1946. Occupational Medicine. Dec.1946. 2:6:531-65.
Papers presented and published in this issue include "Heart disease and working capacity in industry," by Paul D. White, p.550-7.

See also 267.

INSURANCE, HEALTH--EUROPE

252. Mountin, Joseph W.
Health insurance programs and plans of Western Europe, Public Health Reports. Mar.14,1947. 62:11:369-99.
A report of the existing health security programs in England, France, Belgium, Sweden, Denmark, and The Netherlands.

JUVENILE DELINQUENCY

253. National Conference on Prevention and Control of Juvenile Delinquency.
Recommendations for action. Washington, D.C., U.S. Supt. of Docs., 1947. 136 p. 30¢.

"The conference...was called by the Attorney General and held in Washington, D.C., Nov.20,21,22,1946. Over 800 representatives of other Federal agencies, State and local governments, and private welfare groups attended. This pamphlet contains the summaries, submitted by the panel chairmen, of the reports of 15 of the panels, which were presented to the plenary session of the Conference."

MENTAL DEFECTIVES

See 279.

MENTAL HYGIENE

254. Seidenfeld, Morton A.
The teachers' role in early recognition of the maladjusted child. J. of School Health. Feb.1947. 17:2:49-53.

See also 233, 265, 296.

NERVES--INJURIES

255. Ellis, James S.
Disability resulting from injuries to peripheral nerves. Brit.J. of Physical Medicine. Jan.-Feb.1947. 10:1:2-4.
From the point of view of an industrial surgeon, explains the nature of treatment and the degree of recovery that may be expected.

See also 243.

NURSING--STUDY AND TEACHING

256. Nursing education: A proposed course in orthopedic nursing. Am. J. of Nursing. Mar.1947. 47:3:177-84.
An outline for an advanced clinical course. The fifth in a series prepared by nurse specialists under the direction of the National League of Nursing Educational Committee on Postgraduate Clinical Nursing Courses.

OBESITY

257. Freed, S. Charles
Psychic factors in the development and treatment of obesity. J. Am. Med. Assn. Feb. 8, 1947. 133:6:369-73.

OCCUPATIONAL THERAPY

258. Solomon, Alfred P.
Occupational therapy, a psychiatric treatment. Am. J. of Occupational Therapy. Feb. 1947. 1:1:1-9.
"Address delivered at the Annual Banquet of the American Occupational Therapy Association, August 15,1946."

259. Taylor, W. O. G.
Occupational therapy in eye wards. Brit. J. of Ophthalmology. Aug.1946. 30:8:456-
The use of crafts in the treatment of eye patients. A paper read before the Scottish Ophthalmological Club, Oct.27,1945.

See also HANDICRAFTS and under specific diseases and disabilities.

OCCUPATIONAL THERAPY--STUDY AND TEACHING

260. Licht, Sidney
The objectives of occupational therapy. Occupational Therapy and Rehabilitation. Feb.1947. 26:1:17-22.
Address delivered before the N.Y. Society of Physical Medicine, Nov.6,1946.

OLD AGE

261. Problems of an aging population. Am. J. of Public Health. Feb.1947. 37:2:152-88.
A section composed of 5 papers read at the American Public Health Assn., 74th annual meeting, Cleveland, O., Nov.14,1946. Included are: "Care of the aged and chronically ill," by T.G.Klumpp, p.156-62: "Sheltered care of the aged," by J.H. Kinnaman, p.163-9; "Preventive aspects of cancer control," by H.L. Lombard, p.170-6; "Public health aspects of diabetes," by H.L.C. Wilkerson, p.177-88.

ORTHOPEDICS

262. Le Vay, A. David
Psychosomatic approach to orthopaedic surgery. Lancet. Jan.25,1947. 252:6439:125-8.
A discussion of the psychological problems involved in the medical treatment of orthopedic patients.

See also 220, 303.

PAIN

See 242.

PARAPLEGIA

263. Rood, Margaret S.
A program for paraplegics. Am. J. of Occupational Therapy. Feb.1947. 1:1:22-5.
Outlines in the total program the place of occupational therapy.

PARAPLEGIA--GT. BRIT.

264. Traumatic paraplegia. Lancet. Feb.15,1947. 152:6442:258-9.
An editorial reviewing current medical practices.

PARENT EDUCATION

265. Moulton, Lillian G.
Do you reject your child? Crippled Child. Feb.1947. 24:5:16-17, 29.
An explanation of how a parent's attitude may be the cause of behavior problems and what should be done.

PEDIATRICS

266. Gesell, Arnold
Developmental pediatrics. J. of Pediatrics. Feb.1947. 30:2:188-94.
The present paper attempts to indicate how the diagnosis and supervision of infant development may be more fully incorporated into the arrangements of pediatric medicine, both at the level of the practitioner and at hospital and health centers.

PHYSICAL EDUCATION

267. Symposium on fitness for work. Presented at the 7th Annual Congress on Industrial Health, Boston, Oct.1,1946. Occupational Medicine. Dec.1946. 2:6:566-605.
Papers presented and published in this issue include:"Need for a campaign for physical fitness," by Richard H. Eanes, p.572-80; "Does American education produce physically fit workers?" by Dean F. Smiley, p.581-586; "Evaluation of fitness," by Ruth E. Boynton, p.587-92.

PHYSICAL EXAMINATIONS

268. Darling, Robert C.
The significance of physical fitness. Archives of Physical Medicine. Mar.1947. 28:3:140-5.
Defines the term and discusses the problem of proper tests for determining physical fitness.

See also 305.

PHYSICAL THERAPY

269. Cole, Olena M.
The physical therapist overseas. Physiotherapy Rev. Jan.-Feb.1947. 27:1:14-22.
A review of the work of physical therapists in the U.S. Army Hospitals overseas during World War II.

See also related subject fields, as EXERCISE, and under specific disabilities.

PHYSICAL THERAPY--STUDY AND TEACHING

270. Opportunities for advanced education for qualified physical therapists. Physiotherapy Rev. Mar.-Apr.1947. 27:2:110-17.
Describes postgraduate programs at 16 approved institutions.

271. Physical therapy section: Its scope and employment opportunities. Part II. Physiotherapy Rev. Jan.-Feb.1947. 27:1:23-6.
Two brief articles on "Physical therapy in the industrial clinic," and "Physical therapy in a curative workshop." Part I, consisting of four articles, was published in the Sept.-Oct.1946 issue (cf. Bul. on Current Literature, Nov.1946, item 835).

272. Physical therapy section: Its scope and employment opportunities. Part III: Physical therapy in a large general hospital; physical therapy in a small general hospital. Physiotherapy Rev. Mar.-Apr.1947. 27:2:107-9.

PHYSICAL THERAPY--SWITZERLAND

273. Ott, Victor
Physical medicine in Switzerland; its development and present position. Brit. J. of Physical Medicine. Jan.-Feb.1947. 10:1:11-14.

PSYCHIATRY

274. Solomon, Alfred P.; Fentress, Thomas L.
A critical study of analytically oriented group psychotherapy utilizing the technique of dramatization of the psychodynamics. Occupational Therapy and Rehabilitation. Feb.1947. 26:1:23-46.
A report on the technique of treating the psychiatric patient by having him dramatize his traumatic problems. "The present technique...has been in use since November,1944, at the Veteran's Rehabilitation Center, Chicago."

See also 257; 258; 262; MENTAL HYGIENE; PARENT EDUCATION.

PSYCHOLOGICAL TESTS

275. Sloan, William
Psychological tests. Welfare Bul., Illinois Department of Public Welfare. Jan.1947. 28:1:12-3,14.
"This discussion is an attempt to present in nontechnical language an exposition of four of the more commonly used psychological tests (Stanford-Binet, Arthur Performance, Chicago Non-Verbal, and Rorschach tests)."

See also 215.

READING

276. Lehrer, Alice
Reading interests of children. Crippled Child. Feb.1947. 24:5:21-3.

REHABILITATION

277. Shands, Alfred R., Jr.
A few remarks on rehabilitation with the presentation of a model community service center. Nebraska State Medical J. Dec.1946. 31:12:480-3.
Address before the Nebraska State Medical Society, Lincoln, Nebr., May 9, 1946. "The purpose of this paper is to present...a few phases of rehabilitation which may be considered for a community program..."

278. Shands, Alfred R., Jr.
Medical rehabilitation: The doctor's responsibility. Delaware State Medical J. Jan.1947. Reprint. 4p.
Read before the Medical Society of Delaware, Dover, Oct.8,1946. "The purpose of this paper is to present to you some of the new data on medical rehabilitation (as distinguished from the second state in rehabilitation; namely, social and industrial rehabilitation)."

See also VOCATIONAL REHABILITATION and under specific disabilities.

RELAXATION
See 234.

Rh FACTOR
279. Snyder, Laurence H.
The Rh factor in feeble-mindedness and other diseases. Minnesota Medicine. Feb.1946. 29:121-9. Reprint.
"An address delivered on the occasion of the first annual meeting of the Minnesota Human Genetics League."

RHEUMATIC FEVER
280. Griffith, George C.
Rheumatic fever, its recognition and treatment. J. Am. Med. Assn. Apr. 5, 1947. 133:14:974-81.
Read in the General Scientific Meetings at the 95th Annual Session of the American Medical Assn., San Francisco, July 2, 1946.

281. Mossberger, Joseph I.
Rheumatic pneumonia; report of two cases. J. of Pediatrics. Feb.1947. 30:2:113-22.
Describes two cases of lung affection in children with rheumatic heart disease.

282. Sokolow, Maurice; Snell, Albert M.
Atypical features of rheumatic fever in young adults. J. Am. Med. Assn. Apr.5,1947. 133:14:981-9.
"It is the purpose of this paper to discuss some of the less well-known clinical syndromes of rheumatic fever in the hope that such a report will assist others in the earlier diagnosis of similar cases."

283. Sullivan, Frances
Crippled children without crutches. Hygeia. Mar.1947. 25:3:186-7,234.
"This article is based on the writer's observations of the work of the Children's Heart Association (of Cincinnati, O.)."

284. U.S. Children's Bureau
Facts about rheumatic fever. (Publication 297) Revised June 1946. Washington, D.C., The Bureau, 1946. 9 p.

285. Wedum, Bernice G.
Helping rheumatic fever victims. Crippled Child. Feb.1947. 24:5:10-12,29-30.
A well-prepared brief discussion of the progressive phases of the disease and the problems created.

ROCKY MOUNTAIN SPOTTED FEVER
286. Ravenel, Samuel F.
Para-aminobenzoic acid therapy of Rocky Mountain spotted fever; outline of a comprehensive plan of treatment with report of five cases. J. Am. Med. Assn. Apr.5,1947. 133:14:989-94.

SAFETY EDUCATION

287. Weedon, Vivian
Educating for safety. Crippled Child. Feb.1947. 24:5:18-20.
A discussion of safety education for the handicapped child.

SCHOOL HYGIENE

288. Baumgartner, Leona, and others
For healthier school children. Child. Mar.1947. 11:9:154-7.
Discusses an adequate health-service program including satisfactory case-finding and follow-up medical treatment. Read before the American Public Health Assn., annual meeting, Nov.14,1946, Cleveland, O. Reprinted from Yale J. of Biology and Medicine, Mar.1947.

See also 236.

SCHOOL HYGIENE--LEGISLATION

289. National school health service bill (House bill 1980). Social Legislation Information Service, Inc. Mar.7,1947. 10:53-7. Mimeo.
An explanation of the bill being introduced in the 80th Congress.

SCOLIOSIS

290. Outland, Tom; Corn, Oscar
The use of parallel grafts and of two-stage and three-stage interlocking grafts in the treatment of idiopathic scoliosis; end results in forty-one cases. J. of Bone and Joint Surgery. Jan.1947. 29:1:163-70.
"Significant improvement...have been achieved in 41 cases of idiopathic scoliosis. These patients were treated by a modified technique of using tibial grafts in spine fusi after obtaining maximum correction (by the Risser type of plaster jacket in 39 cases and by the hammock suspension method in 2 cases)."

See also 306.

SOCIAL SERVICE

291. Stipe, Jack H.
The Veterans Administration social service program. Public Welfare. Mar.1947. 5:3:50-4,70.

See 227, 228, 235, 239, 248, 296.

SPEECH--CYPRUS

292. Chrysanthis, Kypros
Stammering and handedness. Lancet. Feb.15,1947. 252:6442:270-1.
A brief analysis of the incidence among 1133 Greek-speaking pupils of the elementary schools of Nicosia, Cyprus.

SURGERY

See 241; 255; AMPUTATION: ANAESTHESIA: ORTHOPEDICS.

SWEDEN. CENTRAL COMMITTEE OF SWEDISH INSTITUTIONS FOR THE CARE OF CRIPPLES.

293. Sweden. Central Committee of Swedish Institutions for the Care of Cripples. (Svenska Vanfoereanstalternas Centralkommitte)
The care of cripples in Sweden. Stockholm, Sweden, The Committee, 1946. 10p. Mimeo.
A survey of the activities of the Central Committee.

TRIDIONE

294. Goodman, Louis S., and others
The anticonvulsant properties of tridione; laboratory and clinical investigations. Am. J. of Medicine. Sept. 1946. 1:3:213-28.
A report "concerned with the laboratory analysis of tridione in comparison with other anticonvulsant drugs, and with the clinical results obtained in a selected group of patients with slow wave EEG dysrhythmias." Bibliography.

TUBERCULOSIS

295. Aitken, A.N.
Rehabilitation therapy in a sanatorium. Am. J. of Occupational Therapy. Feb.1947. 1:1:10-17.
Address delivered at the Annual Convention of the American Occupational Therapy Association, Aug.15,1946.

296. Hayward, Emmeline P.
Human emotions and their bearing on tuberculosis. Newsletter, Nat. Council on Rehabilitation. Feb.1947. 4:2:2-7.
Read before a meeting of the American Association of Medical Social Workers, New York City.

297. Hardy, Janet B.; Hartmann, John R.
Tuberculous dactylitis in childhood: A prognosis. J. of Pediatrics. Feb.1947. 30:2:146-56.
The cases of 21 patients were followed for a period of eleven years. "Provided the patient survived the other manifestations of tuberculosis, the prognosis for complete healing of the bone with return to normal contour in most instances was excellent. Healing occurred in from one to three years."

UNDULANT FEVER

298. Evans, Alice C.
Brucellosis in the United States. Am. J. of Public Health. Feb.1947. 37:2:139-51.
A summary of the history of the disease in the U. S. and of the efforts to diagnose and control it. Bibliography. Read before the First Inter-American Congress for Brucellosis, in Mexico, D.F., Oct.28,1946.

VETERANS (DISABLED)

See 225, 230, and under specific disabilities, as AMPUTATION; BLIND; DEAF; PARAPLEGIA.

VOCATIONAL GUIDANCE

299. Brennan, Lawrence D.
The challenge of "The Glass Menagerie." J. of Business Education. Oct.1946. 22:2:13-15.
A discussion of the psychological reasons for failure of Laura, the crippled character in the Broadway play, "The Glass Menagerie," in her studies at a vocational business school. Suggests ways in which business schools can provide much-needed guidance for the handicapped people they accept.

VOCATIONAL REHABILITATION--MINNESOTA

300. Brainerd, Ben R.
Guiding the handicapped in the school. Minnesota J. of Education. Mar.1947. 27:7:322.
An explanation of the state program by the Acting Director, Division of Vocational Rehabilitation.

WORKMEN'S COMPENSATION--SECOND INJURY

301. The physically impaired can be insured without penalty. The Association of Casualty and Surety Executives, 60 John St., New York 7, N.Y. 1p.
A small publicity leaflet published for free distribution.

302. U.S. Retraining and Reemployment Administration
Recommended principles governing second injury fund legislation. Washington, D.C., The Administration,(1946). 3p. Mimeo.

See also 244.

NEW BOOKS IN THE LOAN LIBRARY

303. American Academy of Orthopaedic Surgeons
Progress in orthopedic surgery 1944. Chicago, Am.Med.Assn., c1945-46. 230p. $1.10.
Reprinted from Archives of Surgery, vols. 51 and 52, 1945 and 1946. Reviews and summaries 821 articles under 22 subjects. Index.

304. Chevigny, Hector

BULLETIN ON CURRENT LITERATURE

The publications listed in this issue have been received by the library of the National Society for Crippled Children and Adults and are available for loan. The library does not stock copies for sale. Prices are listed so that orders may be addressed directly to the publishers.

Because the library frequently has only one copy of an item, and because of the great number of requests, it is suggested that the resources of local libraries be investigated first. The library is maintained by the National Society for the use of its staff, for the state and local member societies, and for others whose local resources are so limited as to make the material otherwise unavailable.

The National Society attempts to maintain as complete a collection as possible on all subjects of interest to workers with the handicapped. Besides lending specific books, pamphlets, or magazine articles, the library will assemble and send materials on any specific subject. Loan material is sent postpaid.

Illinois
Earl Wanacek
Wisconsin

The National Society for Crippled Children and Adults is a nation-wide organization with headquarters in Chicago and more than 2000 member state and local societies for the crippled and handicapped throughout the country. Its many projects and services are directed and supervised by professionally trained specialists. The Society provides services in health, welfare, education, recreation and employment to all types of handicapped persons. All services of the Society are established and carried out in a manner to supplement and extend and not to duplicate or compete with the services of any other agency public or private, national, state or local. The National Society is supported by the annual sale of Easter Seals.

Secretary - Lawrence J. Linck - Executive Director
Illinois
